Proposed Contract [REDACTED]

50X1

REFERENCE: Attached Proposal for Development of a Special Purpose,
Narrow Band, High Speed Communications System

1. On previous occasions [REDACTED] has presented his ideas to members of the Office of Communications on a new type of Communications system. These discussions have culminated in the attached proposal for a research and development program.

50X1

50X1

2. It is the intention of this Division to further study this proposal to determine, to the maximum extent possible, the practicability of the proposed system prior to the time of contract initiation. However, the previous discussions with [REDACTED] and an initial review show that there is a high degree of probability that the program will be acceptable to this office.

50X1

3. Inasmuch as [REDACTED] is a newly organized firm, advance notice of our intentions are hereby given in order that you might make preliminary contractual negotiations with them. Our study will be completed within the next three weeks and concrete recommendations will be made at that time.

50X1

4. It is our intention to utilize Fiscal Year 1954 funds for this purpose.
